Objective:

Detail-oriented B.Tech Textile Technology student with hands-on knowledge in fabric forming technologies, fabric analysis, and textile quality evaluation. Experienced in interpreting fabric properties, identifying defects, and supporting quality assurance processes. Seeking opportunities to apply production knowledge and strengthen skills in textile manufacturing and testing.

Education:

BE.Tech Textile Technology 2023-2027

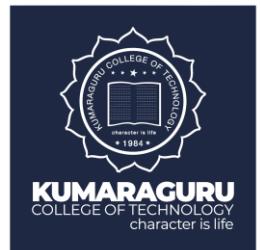

Kumaraguru College of Technology - CGPA 7.3

Soft Skills:

- Good listening
- Effective communication
- Problem solving skills
- Leadership

Technical Skills:

- Project Management
- Quality Control

Project

Fabric Colour Uniformity Index Analysis

This project is to evaluate fabric color uniformity using RGB values captured by a light sensor interfaced with an Arduino board. RGB data collected from multiple fabric points are statistically analyzed to calculate a Color Uniformity Index

Certification:

Internship / Research:

I have done my internship at Hometextile company at karur that produces Kitchen linen ,Bedspread and multiple kitchen based products. I have hands on experience at Quality checking lines.
